

**QUALIFICATIONS**

XERXES Studio is a Los Angeles-based graphic arts and design company. The firm is highly experienced in multi-phased projects and specializes in document planning and design, corporate identities & branding, and photo manipulation and editing.

Xerxes Studio, with nearly 30 years of experience, has designed, coordinated and produced a wide range of documents and publications such as marketing brochures, annual reports, books, and magazines for clients ranging from public agencies to private industries and professional practices.

The firm's unique approach to visual communication combines creativity and originality with the understanding of the political, social, and economic forces that impact a project from its initial design stage to completion.
